

February 19, 2026

Dear Parents,

The anticipation of a new year is upon us. We are nearing the end of our 2nd term this year, and yet the preparation for next year is beginning. I'm excited to announce that the 2026-2027 school year registration is open!

For 26-27 school year we hope to continue the momentum of growth that is occurring. Our school will carry on with our vision for growing our early primary program, excelling in education with amazing teachers and support staff, and working towards building a beautiful play space for our students and wider community. Our Continuous Improvement Plan highlights areas of growth and strength in our community and we look forward to leaning into those areas.

Again, our staff continues to grow and develop in their fields while using their skills and knowledge to support student learning. Through Outdoor education, the Arts, use of advancing technology, as well as traditional teaching methods, we are seeing student successes as they learn in ways that both inspire and challenge them. Our school focus is largely academic, and yet Bible integration and student wellness are a focus in each classroom; we are developing the leaders of tomorrow! It is our great joy and privilege to walk alongside your children as they learn. We see your children as whole people and strive to offer an education that:

- Offers diverse learning opportunities for a wide range of learning styles and needs.
- Allows students to engage in hands-on activities, utilize technologies to deepen understanding, and develop leadership skills.
- Offers students opportunities to learn alongside classmates of different grades so that they can both learn from and teach their peers.
- Invites home-learners to join us for a flexible blended learning program with our sister school, CHEK ABC.
- Integrates Biblical content across subject areas in authentic and meaningful ways.
- Engages our school community, larger local community, and global community in different acts of Service Learning.

We look forward to another year of learning and growing, and we thank you for choosing Nelson Christian Community School. We know that you made a choice for your child(ren) to attend this Christian Education program and that continues to motivate us towards excellence.

Tracy Ashley
Principal
